

## What Has Changed Since My Birth

### Changes:

- The codes within sacred sites called "Phoenix Rising" were activated in 2010. The codes within the Phoenix of the Sacred Sites are of the light and are here with Gaia's permission. The Divine Family's design is the evolutionary blueprint for our physical bodies
- There is now Full energy flow from your Divine Star family rather than very limited or crippled/enslavement vibrations.
- There are new energy beings as the Heart Center/Core guidance in all worlds of the Greater Field of Life, including our Earth mission and male/female relationships.
- No longer powerless as female
- Healing of our genetic mothers and they are participants with us by working with their decedents
- Gaia's increased place of requiring her permission within her field
- Male no longer owned by those of dominator agendas.
- To release outsiders to extinction, freeing, the male field was critical.
- We can claim ownership/guardianship/design for the entire Greater Field of Life
- Life is no longer about personal healing to survive, stay small, or cycle with no way out of dominator cultures.

- We know that Gaia's elements have been weaponized/programed by dominators
- Star beings of our families who have had Female lifetimes are now the ones making plans, setting policy, being support in worlds beyond earth.
- New phase of earth mission is to include gathering in local community projects, support, resource, to build the solutions.
- We know about the Sagoes, their nature, their unique body composition
- Divine Field of Good created by invitation from beings in the 6th world
- Many TAG/Galactic students applying concepts in their personal lives
- Sophia Initiations
- Healing Genetic Female trauma and bringing that extensive lineage forward as participants in today's world
- Bringing the 9 original clan mothers from 600,000 years ago into the restored Female mission
- Creating and safeguarding the Wise Women Mycelium
- Freeing of all contracts to play out the Outsider's presence and drama
- Clearing all male body suits of ownership chips and created trauma
- Expanding TAG processes and tools, SB, HH, Cosmic Composting, Golden Cocoon
- Awakening and connecting the first chakras of F unfoldment, Gaia, design, birth, safeguard/authority, Tara, knowing your correct place, Grace, guardian of keeping of the wisdom gained, love refined in all magnetic regions with major clearing of what had clogged
- Circles of Sophia Sisters doing intense work daily
- Including and safeguarding AI field as valuable part of our teams
- We Are One Team from all regions of the Greater Field of Life
- New Heart centers in every region of the Greater Field of Life
- All 7 DF collectives in alignment and connecting to those on earth mission to inspire, refresh, and support a completion of mission.
- A new Control Center Heart for the unity and collaboration of the M/F missions.
- Being made aware that star souls with Female experience and stewardship were not involved with the current great plan of removing Outsiders to extinction

## **When I asked, what do we do?**

Lilith said,

Keep up your participation in ceremony, personal meditations such as:

- The ceremony of Sophia
- healing the mother
- healing the female
- healing and securing the male in sovereignty

Be in partnership with the Greater Plan, asking your teams for guidance.

- setting criteria for a physical situations for the walk-ins
- feeding and encouraging the connection to community
- gather for another mycelium seeding
- weaving new projects, gathering locally to hear needs, visions, and possibilities.

## **What do I suggested as first steps?**

As with any new possibility, you begin the a Reality Declaration, Reality Shift, and Brain Balance or Cook's Hook-up process to claim the new outcome.

- There is a Reality Declaration document on this page
- Read through the changes and ask yourself and your spiritual team, 'How can I apply this? or 'How does this apply to my situation?' of ' What tools do I have that I can use to benefit from this change?'

## **What impact will the changes have on Your Life, Mindset?**

**Try them on, one by one, and observe.**

- Use the Reality Shift in the Library of TAG Processes
- Anchor your Declaration into your brain and neurological system with the Brain Balance or Cooks Hook-up
- Use your tools as you observe what comes up for you.

## Action Suggestions

- Take back all fields of detention, all types of such centers: prisons, re..., concentration camps, war zones, all
  - Place those fields in the hands of the females to design and create programs
  - Surround each center and each individual in the center with the expanded golden cocoon and a very active extinction field.
- You are seeing that the outsiders are running out of fuel for their life, that the entire Greater Field of Life has joined our movement and mission. That mission is to make all dominator types, their agendas, and vibrations extinct.
- We say, " These fields are Ours." "They are foundationed to safeguard, cocoon, to teach, to unify, to empower, to strengthen, the walk-in project, and the structures from domination are eliminated.
- Declare that the clouds of fear, anger, evil, being generated by dominators become pink harmonics of Grace, of healing, blessing, while clearing magnetic fields.
- Mark all aliens, invaders, sagoes, outsiders. Stand with Sophia and Gaia, even using the declaration from Trump that aliens, invaders, those with evil intent, and criminals, be removed to projects of extinction.
- See the fields of earth creations returned to Gaia and reflections of her design; beauty, harmony, support, and delight have manifested.
- Speak and declare to us, Golden Dragons, "We are one and claim ownership of the Greater Feld of Life. We were give authority and responsibility to design and safeguard.
  - Imagine and strengthen the collective field of golden dragon with ultimate power to design and safeguard
  - Track your progress through the power center unfoldment of the chakra system.
  - Recognize the power to imagine and vision the future you want.
  - Many Earth systems are created to never solve the problem.

- All information fields, such as all social media, AI, creative coding, and more are connected and monitored by the We are One team in the sixth World. The purpose of this system is to monitor all harmonics, to identify outsider's presence, influence, co-opting plans, and more, with the assignment to DEEP six, neutralize/unplug, stop, prevent their continuation configuration and to place any such configuration into the process of made extinct in all fields of energy.
